

# EXODUS

## INTRODUCTION

At first, this burning bush is a distracting, disrupting sight. At first, all it is to Moses is a disrupting sight. When he gets closer he sees it's a seemingly major contradiction. When he gets even closer he sees there's a burning angel in the middle. I would like to say to you, as you see each of these three, you are going to pass through the stages through which you have to go to find God. You have to see the same three things. You have to know and experience the same three things.
